

## Individual Work Log

<b>PROJECT NAME:</b>	<b>Genealogy Application / Website</b>		
<b>STUDENT NAME:</b>	<b>Marco Giacoppo</b>		
<b>STUDENT ID:</b>	<b>104071453</b>	<b>WEEK # (&amp; dates covered):</b>	<b>Week 10 ( 12/05/2025 – 16/05/2025 )</b>

TASKS	STATUS	TIME SPENT	ACTION ITEM/NOTE
Meeting with supervisor	Completed	30 minutes	
Attended the lecture	Completed	1 hour	
Modularizing the layout functionality	On Going	4 hours	Still not satisfied with how it looks. Might research even further.
Finished polishing code structures	Completed	3 hours	Finally split the codes to folders and files.
Add Place of death in side panel	Completed	1 hour and 30 minutes	Adding this was straightforward but I ran to some issues where I accidentally added deathhTown instead of deathTown so it wouldn't return anything from the db.
Edit First/Middle/Last name in side panel	Completed	1 hour and 30 minutes	Allows users to edit their name in the side panel

<b>TOTAL WEEKLY TIME SPENT</b>		<b>11 hours and 30 minutes</b>	
--------------------------------	--	------------------------------------	--

<b>TASKS PLANNED FOR NEXT WEEK</b>	<b>EXPECTED COMPLETION</b>
Begin to wrap up everything	End of week 11
Still try to find a better way to position all the cards	End of week 12

**Summary/weekly reflection for Week #:**

- *This week was also a chill week. Started to focus on other small stuffs and do some improvements here and there.*
- *Hopped on call with a few of the team members to strategize the card layout.*
- *Might do some slight modifications on how the cards look.*
- *All in all, not very much got done this week except for all the other sub-tasks that were done by all the other 3 team members.*
- *All core functionality is mostly done by Corey and Me. So, we could relax a little bit this next weeks until we need to get all the other final stuffs done.*
