Individual Work Log

PROJECT NAME:	Genealogy Application / Website		
STUDENT NAME:	Marco Giacoppo		
STUDENT ID:	104071453	WEEK # (& dates covered):	Week 7 (16/09/2024 – 20/09/2024)

TASKS	STATUS	TIME SPENT	ACTION ITEM/NOTE
Attended the seminar	Completed	1 hour	
Meeting with supervisor and talked about updates	Completed	30 minutes	From now on, it'll be online
Creating wireframe ideas for the interface	Completed	4 hours	Creating a bunch of wireframes to choose from
Had a meeting with most of the team member	Completed	2 hours	Had a meeting to discuss what software to use and languages
Started doing sprint 2	On going	2 hours	Did a bunch of different parts in sprint 2
TOTAL WEEKLY TIME SPENT		**9 hours 30 minutes**	

TASKS PLANNED FOR NEXT WEEK	EXPECTED COMPLETION

Finish researching on new topic and cross-check with client if we're on the right path	End of week 8
Start creating the web	End of week 8

Summary/weekly reflection for Week #:

- *Attended the seminar and have some ideas on what to do.*
- ***Wireframes Creation****: I worked on developing wireframes for the genealogy website, focusing on the user flow and interface design. These wireframes outline the main pages and features, such as the family tree visualization, profile details, and timeline views. This helped in visualizing the project structure and ensuring a user-friendly layout.*
- *I also completed the Sprint 2 document, which involved outlining the progress made. This document captured the Problem Overview, System architecture, alternative architecture, etc.*
- *I had a meeting with Harsharan to discuss the current state of the project.*
- *I attended the seminar on Monday.*
- *We had a productive meeting with the team member to review our current tasks and plan for the upcoming week. We discussed the next steps in terms of development, divided responsibilities, and set timelines for completing the remaining components of the project.*
